Archana Gupta has completely transformed the Stainless Steel Wires Division of KEI Krishna Electrical Industries. A Courteous & principled industry leader. She has been instrumental in the expansion of all divisions and in defining the functional ambit and footprint of KEI. Ms. Gupta is guiding and advising the management team wherever required and she is not acting full time as Executive Director of the Company. Ms. Gupta completed her undergraduate degree at the University of Mumbai. KEI was founded in 1968 as a partnership corporation with a primary focus on the production of rubber cables for house wiring. Today, it has transformed itself into a global empire that provides comprehensive wire & cable solutions. Through a vast network of over 30000+ channel partners, products cater to clients in over 55+ countries across the globe. The strength of its human resources has always been a core value for KEI Industries. Thousands of employees serve in variety of capacities to efficiently provide services to clients. Presently headquartered in New Delhi, with branch offices and warehouses which are spread across nation.

Dr. Dimple Ishi Patel, very respectful, an accomplished Director of Education, serves as the STEM Programs Executive Director at KGS Education Services. Her educational journey, culminating in a Doctorate in Education from Washington State University, reflects a commitment to advancing learning in both higher education and K-12 sectors. With a profound passion for STEM education, Dimple has become a beacon of innovation and leadership. Dr. Patel brings extensive expertise in curriculum design, ensuring that educational programs are not just comprehensive but also tailored to the dynamic needs of students. Recognizing the pivotal role of educators, she has been at the forefront of designing and implementing effective teacher training programs, equipping instructors with the tools they need for success. Dimple's strategic leadership and hands-on teaching skills have been instrumental in managing STEM camps that inspire and engage young minds in science, technology, engineering, and mathematics. As the STEM Education Executive Director of Wize Computing Academy, Dr. Dimple Patel has demonstrated an unparalleled ability to blend strategic vision with practical implementation, creating vibrant STEM learning environments that leave a lasting impact. She pursued an undergraduate degree in accounting and finance at Iowa State University and a Master's in Business Management from

Kaplan University. However, her passion for educational leadership took root during her doctoral studies at Washington State University. Dr. Dimple Ishi Patel emphasizes, "Education, entrepreneurship, and giving back are the pillars of building a better world. Through KGS Ventures, we're not just investing in businesses or students—we're investing in the future." Through initiatives like the annual STEM Table Event, the KGS Foundation Service brings businesses and educators together to provide hands-on STEM experiences for children, sparking curiosity and a love for learning. In addition to organizing food drives and community outreach, the foundation is expanding its reach with new literacy programs planned for Uttarakhand, India, and rural Colorado schools. "Every dollar we raise goes toward helping others," Dr. Patel emphasizes. "Giving back is at the heart of everything we stand for." Also on advisory board of KGSFoundation and Cofounder ThelppyDippy.
