Marc Desjardins A chartered accountant and statutory auditor by training. He is Cofounder of the global accounting and consulting firm TGS Global France, a network he runs daily with his team. His professional career has seen him develop skills as diverse as auditing semi-public companies and providing strategic and financial support to innovative businesses. For several years, he has focused his experience on the international development of SMEs and the establishment of foreign companies in France. He is global sustainability leader currently helping global corporates with GRC - Third party risk management, virtual data room, business intelligence & intelligent bot automation - robotic process automation.

Katie Harvard Taylor has been part of the Hillier Hopkins team since graduating from the University of Exeter in 2012. She is an experienced auditor passionate about delivering a quality service to clients in a wide variety of industry sectors. She looks after a diverse client portfolio from small owner-managed businesses to large international groups, working closely with our international network TGS Global. Katie is also Chair of the Hillier Hopkins Sustainability Team, leading initiatives to drive responsible and sustainable business practices. Katie became a Principal at Hillier Hopkins in April 2025.
