

3 Crore Donation

Inspired from Shri Piyush Vedprakash Goyal. Our small company made small donations for global social good and on our request our partner companies made INR 3 Crore donation for uplifting and strengthening citizens in all states of India. In the coming months our partner companies will be donating INR 700 Crore for all states of India using their company PAN card for government record. It will be good if all political parties of India completely stop free free free politics and invest in the development of sustainable schools, public libraries, industry centric skill development centre to make citizens independent and push them to do something good for the country just like our commerce minister of India, leader of common citizens of India Shri Piyush Vedprakash Goyal.
