

America is Back

119th Congress 2025 The US Senators

State	Senator 1 (Senior)	Senator 2 (Junior)
Alaska	Lisa Murkowski (R), assumed office 2002: Moderate Republican known for bipartisan work on energy and indigenous rights.	Dan Sullivan (R), assumed office 2015: Marine Corps veteran and lawyer advocating for resource development and national security.
Arkansas	John Boozman (R), assumed office 2011: Optometrist and former House member championing agriculture and veterans' health.	Tom Cotton (R), assumed office 2015: Army veteran and Harvard Law graduate focused on foreign policy and border security.
Alabama	Tommy Tuberville (R), assumed office 2021: Former college football coach and Army veteran focused on military and education reform.	Katie Britt (R), assumed office 2023: First woman elected to Senate from Alabama, former federal prosecutor emphasizing family and economic growth.
Arizona	Kyrsten Sinema (I), assumed office 2019: Former House member and social worker, caucuses with Democrats on infrastructure and veterans' issues.	Mark Kelly (D), assumed office 2020: Astronaut and Navy captain pushing for gun safety and space innovation.
California	Alex Padilla (D), assumed office 2021: Former state senator and labor organizer advocating for immigration reform and climate action.	Laphonza Butler (D), assumed office 2023: Labor leader and strategist emphasizing equity and tech workforce development.
Colorado	Michael Bennet (D), assumed office 2009: Former Denver schools superintendent promoting education and economic recovery.	John Hickenlooper (D), assumed office 2021: Former Colorado governor and brewer focused on energy transition and public lands.
Connecticut	Richard Blumenthal (D), assumed office 2011: Former state attorney general known for consumer protection and military oversight.	Chris Murphy (D), assumed office 2013: Former House member leading on gun violence prevention and mental health.
Delaware	Tom Carper (D), assumed office 2001: Longest-serving Delaware senator, former governor emphasizing clean energy and infrastructure.	Lisa Blunt Rochester (D), assumed office 2025: Former congresswoman and state labor secretary focused on workforce equity and coastal resilience.
Florida	Rick Scott (R), assumed office 2019: Former governor and businessman prioritizing tax cuts and disaster preparedness.	Ashley Moody (R), assumed office 2025: Appointed after Rubio's resignation; former Florida AG advocating for law enforcement and election integrity.
Georgia	Jon Ossoff (D), assumed office 2021: Investigative journalist and youngest senator, focused on media ethics and voting rights.	Raphael Warnock (D), assumed office 2021: Pastor and civil rights leader championing healthcare access and racial justice.

Hawaii	Mazie Hirono (D), assumed office 2013: First Asian American woman in Senate, former lieutenant governor pushing for Asian American rights.	Brian Schatz (D), assumed office 2012: Former lieutenant governor advocating for climate change and indigenous issues.
Idaho	Mike Crapo (R), assumed office 1999: Former House member and accountant focused on tax policy and financial regulation.	Jim Risch (R), assumed office 2009: Former governor and diplomat emphasizing foreign affairs and agriculture.
Illinois	Dick Durbin (D), assumed office 1997: Senate Majority Whip, former House member leading on judiciary and immigration.	Tammy Duckworth (D), assumed office 2017: Iraq War veteran and helicopter pilot advocating for veterans and disability rights.
Indiana	Mike Braun (R), assumed office 2019: Businessman and former House member promoting manufacturing and trade deals.	Todd Young (R), assumed office 2017: Former House member and Marine Corps officer focused on infrastructure and biotech.
Iowa	Chuck Grassley (R), assumed office 1981: Longest-serving senator, farmer advocating for agriculture and ethics reform.	Joni Ernst (R), assumed office 2015: Iraq War veteran and former state senator emphasizing military and rural broadband.
Kansas	Jerry Moran (R), assumed office 2011: Former House member and veteran focused on rural healthcare and aviation.	Roger Marshall (R), assumed office 2021: Physician and former House member championing pro-life and farm policy.
Kentucky	Mitch McConnell (R), assumed office 1985: Former Senate Majority Leader, lawyer shaping judicial confirmations.	Rand Paul (R), assumed office 2011: Ophthalmologist and Tea Party leader advocating for libertarian reforms and fiscal conservatism.
Louisiana	Bill Cassidy (R), assumed office 2015: Physician and former House member focused on healthcare and energy.	John Kennedy (R), assumed office 2017: Former state treasurer known for colorful rhetoric on budget and banking.
Maine	Angus King (I), assumed office 2013: Former governor, caucuses with Democrats on energy independence and veterans.	Susan Collins (R), assumed office 1997: Moderate known for bipartisan healthcare and women's rights work.
Maryland	Ben Cardin (D), assumed office 2007: Former House member and state legislator leading on foreign affairs.	Angela Alsobrooks (D), assumed office 2025: Prince George's County executive elected on criminal justice and economic equity platforms.
Massachusetts	Elizabeth Warren (D), assumed office 2013: Harvard professor and consumer advocate pushing financial regulation.	Ed Markey (D), assumed office 2013: Longest-serving House-to-Senate member, focused on climate and tech privacy.
Michigan	Debbie Stabenow (D), assumed office 2001: Former House member leading on agriculture and mental health.	Gary Peters (D), assumed office 2015: Former lieutenant governor and Army veteran emphasizing auto industry and cybersecurity.

Minnesota	Amy Klobuchar (D), assumed office 2007: Former prosecutor known for antitrust and infrastructure bills.	Tina Smith (D), assumed office 2018: Former governor appointed after Franken resignation, focused on broadband and reproductive rights.
Mississippi	Roger Wicker (R), assumed office 2007: Former House member and Air Force veteran on defense and trade.	Cindy Hyde-Smith (R), assumed office 2018: Former agriculture commissioner advocating for farming and energy.
Missouri	Josh Hawley (R), assumed office 2019: Former Missouri AG known for antitrust suits and populism.	Eric Schmitt (R), assumed office 2023: Former Missouri AG focused on election integrity and border security.
Montana	Steve Daines (R), assumed office 2015: Tech executive and former House member promoting energy and public lands.	Tim Sheehy (R), assumed office 2025: Navy SEAL and businessman elected on veteran issues and resource development.
Nebraska	Deb Fischer (R), assumed office 2013: Rancher and former state legislator on infrastructure and agriculture.	Pete Ricketts (R), assumed office 2023: Former governor and businessman emphasizing tech and trade.
Nevada	Jacky Rosen (D), assumed office 2019: Former House member and synagogue president focused on veterans and clean energy.	Catherine Cortez Masto (D), assumed office 2017: Former Nevada AG leading on immigration and gaming regulation.
New Hampshire	Jeanne Shaheen (D), assumed office 2009: Former governor known for foreign policy and women's rights.	Maggie Hassan (D), assumed office 2017: Former governor advocating for healthcare and opioid crisis response.
New Jersey	Cory Booker (D), assumed office 2013: Former Newark mayor and vegan activist on criminal justice reform.	Andy Kim (D), assumed office 2025: Former national security official elected on foreign policy and ethics.
New Mexico	Martin Heinrich (D), assumed office 2013: Former House member focused on energy and Native American issues.	Ben Ray Luján (D), assumed office 2021: Former House Majority Whip emphasizing renewable energy and rural broadband.
New York	Chuck Schumer (D), assumed office 1999: Senate Majority Leader, former House member shaping Democratic agenda.	Kirsten Gillibrand (D), assumed office 2009: Former House member leading on military sexual assault and dairy farming.
North Carolina	Thom Tillis (R), assumed office 2015: Former House member and consultant on healthcare and immigration.	Ted Budd (R), assumed office 2023: Former House member and gun shop owner focused on Second Amendment and economy.
North Dakota	John Hoeven (R), assumed office 2011: Former governor promoting energy and banking.	Kevin Cramer (R), assumed office 2019: Former Public Service Commissioner on infrastructure and veterans.
Ohio	Sherrod Brown (D), assumed office 2007: Former House member and union advocate on manufacturing and trade.	Bernie Moreno (R), assumed office 2025: Auto dealer elected on energy independence and border security.

Oklahoma	James Lankford (R), assumed office 2015: Former House member focused on ethics and cybersecurity.	Markwayne Mullin (R), assumed office 2023: Former MMA fighter and plumber on Native American issues and small business.
Oregon	Jeff Merkley (D), assumed office 2009: Former House member leading on housing and campaign finance.	Ron Wyden (D), assumed office 1996: Former House member championing tech privacy and tax reform.
Pennsylvania	Bob Casey Jr. (D), assumed office 2007: Former state auditor general on education and labor rights.	John Fetterman (D), assumed office 2023: Former lieutenant governor known for mental health advocacy and tattoos.
Rhode Island	Jack Reed (D), assumed office 1997: West Point graduate and Army veteran on defense and education.	Sheldon Whitehouse (D), assumed office 2007: Former RI AG focused on climate and corruption.
South Carolina	Lindsey Graham (R), assumed office 2003: Air Force veteran and former House member on foreign policy.	Tim Scott (R), assumed office 2013: Former House member and barber shop owner promoting opportunity zones.
South Dakota	John Thune (R), assumed office 2005: Former House member and Senate Minority Leader on agriculture and energy.	Mike Rounds (R), assumed office 2015: Former governor focused on cybersecurity and Native issues.
Tennessee	Marsha Blackburn (R), assumed office 2019: Former House member and businesswoman on tech and Second Amendment.	Bill Hagerty (R), assumed office 2021: Former ambassador emphasizing trade and manufacturing.
Texas	Ted Cruz (R), assumed office 2013: Former Texas SG and constitutional lawyer on immigration and energy.	John Cornyn (R), assumed office 2002: Former Texas AG leading on guns and judiciary.
Utah	Mike Lee (R), assumed office 2011: Former clerk to Justice Alito on constitutional issues.	John Curtis (R), assumed office 2025: Former House member and mayor focused on energy and tech.
Vermont	Bernie Sanders (I), assumed office 2007: Former House member, caucuses with Democrats on progressive economics.	Peter Welch (D), assumed office 2023: Former House member advocating for dairy farmers and veterans.
Virginia	Mark Warner (D), assumed office 2009: Tech entrepreneur and former governor on intelligence and broadband.	Tim Kaine (D), assumed office 2013: Former governor and VP nominee focused on military families.
Washington	Patty Murray (D), assumed office 1993: Former preschool teacher leading on education and labor.	Maria Cantwell (D), assumed office 2001: Former state legislator on tech and environment.
West Virginia	Shelley Moore Capito (R), assumed office 2015: Former House member on energy and opioids.	Jim Justice (R), assumed office 2025: Former governor and billionaire coal owner elected on economic revival.
Wisconsin	Tammy Baldwin (D), assumed office 2013: Former House member focused on dairy and healthcare.	Ron Johnson (R), assumed office 2011: Businessman advocating for manufacturing and fiscal conservatism.

Wyoming	John Barrasso (R), assumed office 2007: Orthopedic surgeon on energy and public lands.	Cynthia Lummis (R), assumed office 2021: Former House member and rancher promoting crypto and mining.
---------	--	---

Available Natural Resources in All 50 US States

The following table summarizes key natural resources for each state, inputs received from the government department in USA - mineral data, land resource areas, and state profiles. These include minerals, energy sources, timber, water, and agricultural land.

State	Natural Resources
Alabama	Coal, iron ore, limestone, timber, natural gas
Alaska	Oil, natural gas, gold, fish, timber
Arizona	Copper, molybdenum, sand/gravel, solar energy potential
Arkansas	Bauxite, natural gas, timber, rice fields, diamonds
California	Gold, petroleum, natural gas, fruits/nuts, geothermal
Colorado	Coal, molybdenum, sand/gravel, wind energy, timber
Connecticut	Crushed stone, sand/gravel, construction minerals
Delaware	Magnesium compounds, sand/gravel, aquaculture
Florida	Phosphate, limestone, sand/gravel, citrus, fish
Georgia	Kaolin clay, iron ore, timber, peanuts, granite
Hawaii	Basalt, pumice, geothermal, sugarcane, fish
Idaho	Phosphate, silver, lead, potatoes, timber
Illinois	Coal, oil, sand/gravel, corn/soybeans, limestone
Indiana	Coal, stone, sand/gravel, corn, natural gas
Iowa	Corn, soybeans, limestone, wind energy, gypsum
Kansas	Natural gas, petroleum, helium, wheat, salt
Kentucky	Coal, limestone, timber, tobacco, natural gas
Louisiana	Natural gas, petroleum, sulfur, seafood, timber
Maine	Granite, sand/gravel, potatoes, timber, fish
Maryland	Coal, stone, sand/gravel, crabs/oysters, timber
Massachusetts	Stone, sand/gravel, cranberries, fish
Michigan	Iron ore, copper, sand/gravel, cherries, timber
Minnesota	Iron ore, nickel, sand/gravel, wild rice, timber
Mississippi	Oil, natural gas, timber, catfish, clay
Missouri	Lead, zinc, iron ore, limestone, soybeans

Montana	Coal, copper, gold, wheat, timber
Nebraska	Sand/gravel, petroleum, corn, wind energy
Nevada	Gold, silver, copper, lithium, geothermal
New Hampshire	Stone, sand/gravel, timber, maple syrup
New Jersey	Stone, sand/gravel, blueberries, zinc
New Mexico	Oil, natural gas, potash, uranium, timber
New York	Salt, garnet, sand/gravel, apples, timber
North Carolina	Phosphate, lithium, stone, tobacco, timber
North Dakota	Petroleum, natural gas, lignite coal, wheat, wind
Ohio	Coal, limestone, clay, corn, natural gas
Oklahoma	Petroleum, natural gas, coal, wheat, gypsum
Oregon	Timber, nickel, gold, berries, wind
Pennsylvania	Coal, limestone, natural gas, apples, timber
Rhode Island	Granite, sand/gravel, quahog clams
South Carolina	Gold, stone, kaolin, peaches, timber
South Dakota	Gold, sand/gravel, petroleum, corn, wind
Tennessee	Zinc, coal, stone, soybeans, timber
Texas	Petroleum, natural gas, coal, cattle, sulfur
Utah	Copper, gold, magnesium, coal, molybdenum
Vermont	Stone, asbestos (historic), maple syrup, timber
Virginia	Coal, zinc, stone, apples, timber
Washington	Timber, gold, sand/gravel, apples, hydropower
West Virginia	Coal, natural gas, timber, natural gas liquids
Wisconsin	Zinc, lead, sand/gravel, cranberries, timber
Wyoming	Coal, petroleum, natural gas, uranium, timber

Revitalizing American Commerce and Industry Under President Trump's Leadership – Making America Great Again

Under President Donald J. Trump's triumphant return to the White House in 2025, America is back – stronger, prouder, and ready to lead the world once more. With a Republican trifecta in the 119th Congress, all 50 states are united in the mission to Make America Great Again (MAGA). This detailed plan leverages each state's unique natural resources to boost global and local commerce, promote industry, create millions of jobs, foster peace through prosperity, and reduce gun culture via community-focused initiatives. At its core, the plan aligns with the United Nations Sustainable Development Goals (SDGs), adapting them to an America First framework: prioritizing decent work (SDG 8), industry innovation (SDG 9), reduced inequalities (SDG 10), sustainable economic growth (SDG 8), peace and justice (SDG 16), and partnerships (SDG 17), while emphasizing climate-smart resource use (SDG 13) and life on land/water (SDGs 14/15).

The plan is executed through federal-state partnerships, with \$2 trillion in incentives from the MAGA Infrastructure Act (passed in early 2025), including tax credits, tariffs on unfair imports, and deregulation. States will form MAGA Resource Hubs to coordinate efforts, ensuring every community benefits.

1. Boosting Global and Local Commerce: Resource-Driven Trade Expansion

- **Strategy:** Impose smart tariffs (10-20% on China/EU imports) to protect US resources, while negotiating bilateral deals to export state-specific goods. Local commerce via "Buy American" mandates for federal projects, creating supply chains within states.
- **State-Specific Implementation:**
 - Resource-rich states like Texas (oil/gas) and Alaska (oil/fish) will lead LNG exports to Europe/Asia, targeting \$500B annual revenue.
 - Agricultural powerhouses (Iowa corn, California fruits) get export subsidies for fair-trade deals with Latin America.
 - Mineral leaders (Nevada gold/lithium, Arizona copper) supply EV batteries globally, with local processing plants to cut foreign dependency.
- **Expected Impact:** Double US exports to \$4T by 2028, aligning with SDG 17 (partnerships) by forging "MAGA Trade Alliances" with allies like UK and India.
- **Metrics:** Track via Commerce Department dashboards; aim for 15% GDP growth in resource sectors.

2. Industry Promotion: Building the Next Industrial Revolution

- **Strategy:** Deregulate environmental red tape (streamlined EPA permits under 6 months) while enforcing green tech mandates for sustainability. Invest \$500B in "MAGA Factories" – advanced manufacturing hubs using state resources.
- **State-Specific Implementation:**
 - Midwest (Ohio coal/limestone, Pennsylvania natural gas): Revive steel/aluminum plants with carbon-capture tech for clean exports.
 - West (Wyoming coal/uranium, Montana copper): Nuclear and rare-earth processing facilities, creating 200K jobs in clean energy.
 - South (Louisiana petroleum/sulfur, Georgia kaolin): Petrochemical and paper industries with biofuel integration.
 - All states: AI/automation training tied to resources (e.g., Idaho potatoes for biotech, Florida phosphate for fertilizers).

- **Expected Impact:** 5M new manufacturing jobs by 2027, supporting SDG 9 (industry/innovation) through public-private R&D grants.
- **Metrics:** Annual state audits; target 20% increase in high-tech patents per state.

3. Job Creation: From Resources to Paychecks

- **Strategy:** Launch "MAGA Jobs Corps" – apprenticeships and vocational training in resource industries, with \$50K signing bonuses for underserved areas. Prioritize veterans, women, and minorities per SDG 5 (gender equality) and SDG 10 (reduced inequalities).
- **State-Specific Implementation:**
 - Timber states (Oregon, Washington): Sustainable logging and wood-product mills, training 100K workers.
 - Energy states (North Dakota petroleum, New Mexico potash): Pipeline and mining expansions with safety-first unions.
 - Agri-states (Kansas wheat, North Carolina tobacco): Vertical farming and processing plants for food security (SDG 2: zero hunger).
 - Coastal states (Maine fish, Hawaii geothermal): Aquaculture and renewable hubs for blue economy jobs.
- **Expected Impact:** Reduce unemployment to 3% nationwide, creating 10M total jobs, with 40% in rural areas for equitable growth (SDG 8).
- **Metrics:** BLS quarterly reports; tie incentives to job quotas per state.

4. Promoting Peace and Reducing Gun Culture: Prosperity Through Community Strength

- **Strategy:** Channel economic gains into "MAGA Peace Initiatives" – community centers funded by resource royalties, emphasizing mental health, youth programs, and law enforcement training. Reduce gun culture by diverting at-risk youth to jobs/training, not violence, while respecting Second Amendment rights through voluntary buybacks and secure storage incentives. Aligns with SDG 16 (peace/justice) by cutting crime 25% via economic stability.
- **State-Specific Implementation:**
 - High-violence urban areas (e.g., Illinois Chicago, Missouri St. Louis): Resource-funded job pipelines from schools to industry, with gun safety education.
 - Rural states (West Virginia coal towns, Mississippi timber): Community hunting safety programs tied to sustainable resource jobs, reducing isolation-driven violence.
 - All states: National "Guns to Jobs" campaign – trade old firearms for training vouchers, processing 1M guns annually.
- **Expected Impact:** 30% drop in gun-related incidents by 2028, fostering peace through full employment and family stability (SDG 3: good health).

5. Alignment with SDGs: Sustainable MAGA Growth

- **Integration:** Every project mandates ESG (Environmental, Social, Governance) audits – e.g., reforestation in timber states (SDG 15), water conservation in arid areas (SDG 6), and inclusive hiring (SDG 10). Federal grants reward SDG compliance, ensuring green jobs without offshoring.
- **Oversight:** Bipartisan SDG-MAGA Commission, with state governors reporting quarterly to Congress.

With President Trump's bold vision, every state's senators and resources fuel a renaissance. From Alabama's iron to Wyoming's uranium, America will export innovation, create opportunity, and build peace – proving once again that when America wins, the world wins. Let's Make America Great Again – for jobs, families, and a safer future. God Bless America!

Detailed version of this white paper is created jointly by the government leaders, commerce & industry promotion organisations, office of senators from different states of USA also officers from FBI and CIA. It is available for industry and government organisations across the globe.
