

Shaktikanta Das

Almost ten years back after multiple work & failures. Our initial first interaction with Shri Shaktikanta Das started with Shri Amitabh Kant before our meeting with Masayoshi Son (Soft Bank Group) and his team with DPIIT joint secretary, senior IAS officers during the launch of startup India event. We met them with Venture Capitalist & Government leaders from Europe. Then we presented details of innovation and technology opportunities with Europe, Israel and how Europe & Israel government can help India. We have shared all confidential documents as per direction of European Government and Government of Israel - list of government agencies, industry organisations, work process. We shared all details of work with DPIIT - What Government of India can do with Europe & Israel. We remain fortunate to get guidance and support from Shri Amitabh Kant who later told us many things about the work procedure & gave us something that is still with us. We remain fortunate to get inspired/good learnings from Shri Piyush Goyal who is our lifetime teacher and we are his lifetime students. We started our work and today we are thankful to our god like teacher whose love helped us to become better human, who inspired us and pushed us to be better version of ourself and do something good for the country and the world.
